Make Your Drinking Water Healthier

Drinking straight out of the tap water is not recommended. So it's important to filter your water before consuming. But you can benefit even more from water enhanced with healthy minerals.

With our filter system, water is fed through the **Bakuhan Enhancement Tank,** enhancing it with many benefits.

Benefits of the Bakuhan Enhancement Tank

Added minerals for health like calcium and magnesium

Make water more alkaline to help balance pH levels in your body

All this in addition to filtering your water means better, healthier drinking water for you and your family.
