Water filtered using the Nano Nature Water Filtration System undergoes a 3-stage filtration process to produce clean, nutrient-rich water. It helps improve water quality and is highly sought after for its many health benefits.

Stage 1: Filter

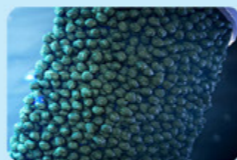

Remove impurities, fine particles, bacteria and viruses.

Nano Nature Pleated Filter Cartridge

Holds 3-4 times more surface area compared to normal non-pleated filters.

Effectively removes:

- 99.99% bacteria
- 99.99% viruses

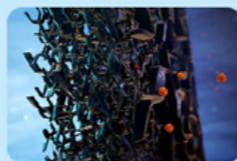

Stage 2: Purify

Remove contaminants and improve smell and taste of water.

High Density Activated Carbon Block Filter

- Removes over **180** contaminants
- Improves water clarity and taste

Stage 3: Enhance

with minerals and increase alkalinity level of water

Bakuhan Enhancement Tank

- Contains **19** different beneficial minerals.
- Bakuhan-seki, a mineral-rich volcanic rock found only in the Gifu Prefecture, certified by the Japanese Ministry of Health for possessing natural therapeutic qualities.

Do-it-yourself simplicity

No need for plumbers or experts. Installation and replacement of cartridges and enhancement tanks are fast and easy.

Nano Nature Pleated Filter Cartridge

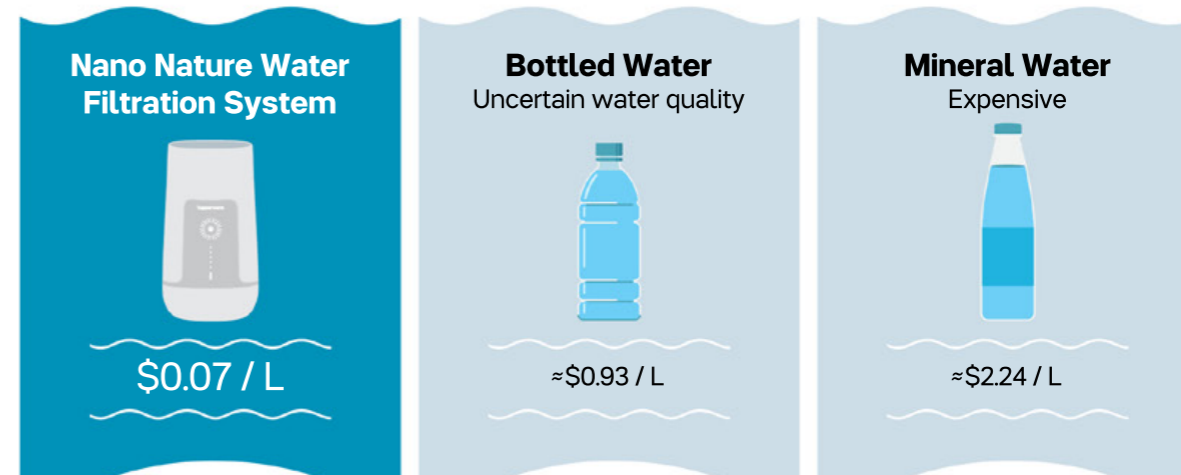

The main filter cartridge needs to be replaced once a year or every 5000L, whichever comes first.

Enhancement Tank

This media contain 19 beneficial minerals and increased the alkalinity of water. To be replaced every 6 months / 2500L, as indicated by Smart LED panel.
